DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 5

In line 2

Replace "claim 4" with - - claim 1 - -

In claim 11

In line 2

Replace "claim 10" with - - claim 7 - -

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance:

Chujoh (US 6,002,802) teaches of skip number control section which controls a skip number between frames to be encoded (Chujoh: Column 7, Lines 13-18, 44-50, column 15, lines 17-21); quantization scale control section which controls a quantization scale indicative of a degree of quantization (Chujoh: Column 7, Lines 63-67); an encoding section which performs encoding of a moving picture by selectively using one of an inter-coding type process and an intra-coding type process on the basis of the quantization scale determined by

the quantization scale control section and skip number determined by skip number control section (Note: Figure 1 of Chujoh shows the switch (104) being controlled by the encoding controller, the encoding controller decides how many frames to be skipped (101) and whether they should be intra or inter coded depending on the "activity" (See Chujoh Column 10, Column 9, Lines 15-67); a code amount detection section which finds code amount of a frame section which encoded by the encoding section (Chujoh: Column 9, Lines 20-22). Chujoh fails to teach of a storage section which stores the quantization scale with which the encoding section performs encoding by the inter-coding type process, the code amount found by the code amount detection section at this time, the quantization scale with which encoding section performs encoding by the intra-coding type process, and the code amount found by the code amount detection section. Chujoh also fails to disclose the particulars on the intra-coding determining section. A further search was conducted which failed to yield any prior art. Therefore, the prior art fails to teach or render obvious these limitations taken within the others in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dave Czekaj whose telephone number is (571) 272-7327. The examiner can normally be reached on Monday - Friday 9 hours.
